# MONEY, STOCKS AND GRAIN

Recovery in General Electric Shares -Good News in Wall Street.

Speculation Left Off Steady and with a Much Firmer Tone Yesterday-Indianapolis Cereals Attracting More Attention.

#### THE BOND MARKET.

Railway Issues Dull and Lower, with Sales Reaching \$382,000. At New York, yesterday, money on call was firmer at 205 per cent., the last loan being made at 3 per cent., closing offered at 3 per cent.

Prime mercantile paper, 628 per cent. Sterling exchange was somewhat easier, with actual business in bankers' bills at \$4.85% @4.86 for sixty days and \$4.89@4.89% for demand.

The stock market was weak in spots, but a firmer tone characterized trading, and in s few instances the net gains for the day were quite important yesterday. The improvement was due in no small measure to the sharp recovery in General Electric foilowing the official depials of the rumors which have been alloat concerning the finances of the company. Some of the bears endeavored to cover after the price got above 70, but the outstanding short interest is still beavy. The grangers, although freely hammered, held up well. Reading was pressed for sale and declined from 174 to 154, but closed at 164. Distillers rose from 15% to 17%, and receded to 16. The gold shipments yesterday and the engagements for to-day were much heavier by the bears to depress the market, but ex-cep; on low-priced shares they were unable to force further liquidations. There was some talk to the effect that a call for an extra session of Congress will be issued by the President shortly, and this was taken as an argument for an improvement in prices. The feeling, taken altogether, was much improved, and speculation left off

Railway bonds were dull and lower.

Sales were \$882,000. Louisville. New Albany & Chicago fives, after falling 24, to 684, rallied to 704. General Electric debenture fives rose 8, to 90. Government bonds were firm and State bonds were dull. Closing quotations were:

LUCAL GRAIN AND PRODUCE. The Trade of May Very Satisfactory, with

Few Fluctuations in Values. In most departments the trade of the month of May was quite satisfactory. Grocers report their trade handsomely in excess of that of May, 1892. In provisions

a smaller quantity was handled, but the money realized on hog products was largely in excess of May, 1892. Commission houses did a good business. Poultry, eggs and butter have all brought good prices. and the produce houses handled an unusually large business for May. The hide, leather and seed markets have been rather flat, and prices have ruled easier, but taken se a whole there is little room for complaint. The local grain market is more active

than two weeks ago, and receipts are larger. The bidding on 'Changa indicates dealers are willing to handle considerable grain at ruling prices. Track bids yesterday ruled as follows: Wheat-No. 2 red, 64c; No. 3 red, 60c;

SOME REACTION IN WHEAT

Under Slightly More Favorable Conditions Prices Advance 1-2 to 5-8c.

Inprovement Set In Soon After the Opening on the Chicago Board of Trade and Extended to Both Corn and Oats.

#### TRADING AT CHICAGO.

Little Doing in Provisions and All Lines

CHICAGO, May 31. - Wright covered about one million bushels of wheat through Schwartz-Dupee on Monday and to-day, and Baidwin-Farnum were also credited with heavy purchases of short wheat on his account. As a result the tension in the wheat and corn markets which made such anxious time for the bulls of Monday was perceptibly relaxed to-day. Prices opened lower, but soon improved and closed at a good advance. In provisions business was neglected and the traders paid very little attention to some efforts of the controlling clique to take it up. Talk of export business to-day, no doubt, helped the wheat market some. The fact of prices being the lowest for many years, also, was a point in favor of the market. Bradstreet's also reported a decrease in stocks of 2,746,000 bushels east and a decrease of 81,000 bushels west of the Rocky mountains. The market opened 4 @ so lower than the closing figwere advanced 1@11sc, eased off a tritle, and the closing was 40 %c higher for July and % @ 4c for September.

In corn many short lines covered and moderate investment business was noticed. A number of offerings were accepted by foreigners. The small stocks of contract, 100,000 bushels, being only an increase of 37,000 bushels for the week, under the large receipts was also a very stimulating factor and had much to do with the limited offerings. The lows and Illinois State reports were both less favorable. The market opened a trifle under the final figures of Monday, but was firm and gradually advanced 4 @ %c, reacting 4 @ so later, ruled strong and closed 4 ale higher.

There was a fair trade in oats and a better feeling, the offerings being lighter and the demand, particularly for the near futures, a little more urgent, so that prices advanced & @ %c and the close was strong at about the top.

The receipts of hogs were liberal at 19,000. September lard was being bought by Wright's brokers against sales of July. Pork closed 30c lower for July and 20c lower for September than on Monday. Lard closed with a loss of .25c for July and .1240 for September, and ribs are .174c lower for July and .10c off for September.

Freights were steady, with a fair demand for vessel room at 1%c for wheat and 1%c for corn to Buffalo. Estimated receipts for to-morrow are: Wheat, 250 cars; corn, 935 cars; oats, 500 cars; boys, 19,000. The lead-

# Sanitary Precautions.

The sanitary condition of the household is a subject on which one should never weary of expatiating. At this time more than usual care needs to be exercised, for as the warm days come the disease germs propagate with great rapidity, and before long will get the upper hand of the care-less housekeeper. Look to the cellar, see that there are no vegetables or fruit in a half-decayed state, clear out odds and ends of all sorts, sweep, scrape, scrub, if necessary; brush out, dust all ashes from the heater that have accumulated during the winter and hang around on the cobwebs, for they are nurseries of disease. Dark spots on the wall should be cleared off and whitewashed. Lime is a great purifier, and copperas-water is invainable for killing disease germs. Two or three pounds of cop-peras dissolved in half a barrel of water and used with a sprinkler around drains and low places where the water settles out of doors may save a doctor's large bill or a break in the family circle. Pour a few pailfuls of copperas-water down the sink and through the pipes, deluge water closets with it and scatter it in all places where there are bad odors. Keep a can of potash on the shelf over

the kitchen sink, drop a few crystals into the sink and let the water dissolve it and run away through the pipes; watch all damp corners; if the walls are water-soaked and paper falls off, leaving a colony of well developed fungue-growths in various shades of blue and black, scrape the walls, get a little Portland cement, mix it with water and put it on with a whitewash brush. Work rapidly, mixing a small quantity at a time, and this will not only give the walls a hard finish, but will make them as waterproof as a china cup. Some day, when we know a great deal

more than we do now, all of the plaster on our walls will be made of this sort of material, stuff that water cannot get through; then we will have no further trouble with paper falling off and growing damp and More people die from carelessness and lower opening because of sharp demand; Hogs - Receipts, 1,200; shipments, 850. | stupidity in the world than from any other

The market was dull. Fair light to best | cause. It is too much trouble to keep things clean, and because the enemy doesn't come with a roaring noise and brandished weapons, nothing is thought about it. A stitch in time saves nine, and a little care early in the season may save doctors' large fees and not infrequently undertakers' larger bills.
